

SIDUS

hot water professional high pressure cleaner

General technical features:

- innovative and functional design • pump with ceramic pistons • 4 pole electric motor (1400Rpm), continuous duty with overload thermal switch
- delayed total stop 20" • fuel level check • water level check • reinforced, acoustic insulated polyethylene made frame (wide thickness), integrated fuel tank capacity 35lt, self-extinguishing and 100% recyclable • reinforced polyethylene made handle, integrated detergent tank, self extinguishing and 100% recyclable • 24Volt switchboard, class of insulation IP55, self extinguishing and 100% recyclable • wide section wheels for more manoeuvrability • switchboard lifting system for easy maintenance • 4 pole electric motor (1400Rpm), continuous duty with overload thermal switch • vertical boilers in stainless steel with separate gas oil pump with efficiency >89% (low fuel consumption) • regulation valve with the pump set to zero when the spray gun is closed • security valve • highly sensitive thermostat with direct immersion bulb and constant temperature control • detergent aspiration device in high pressure (low pressure in optional) with metering system • hose, lance with automatic gun as standard professional accessories

excellent performance, modern design, technological innovation
